Technology Center 2600

Commissioner for Patents  
Washington, D.C. 20231

AMENDMENT PURSUANT TO 37 C.F.R. §1.115

Sir:

In response to the Final Office Action mailed August 1, 2001, and the Advisory Action dated March 19, 2002, please reconsider the above-identified application as amended and in light of the following remarks:

IN THE CLAIMS

Please cancel claims 17 and 25 without prejudice.

CLEAN COPY OF AMENDED CLAIMS:

9. (Twice Amended) A data reception device designed to receive wirelessly transmitted digital signals, comprising:

software detecting means for detecting operating system software in said received digital signals in an ordinary receiving mode, said operating system software being multiplexed in said digital signals and executed to control said data reception device;

I hereby certify that this correspondence is being deposited with the United States Postal Service with sufficient postage as First Class mail in an envelope addressed to Commissioner for Patents, Washington, D.C. 20231 on April 19, 2002.
